FADINI BORGHESI

Cette collection rend hommage à l'élégance intemporelle de l'Italie, à travers les époques et les savoir-faire. Les étoffes évoquent tour à tour la splendeur des fresques antiques, la délicatesse des jardins pompéiens, la grâce des danses dionysiaques ou encore la richesse des velours de Gênes. Les motifs floraux, les volutes et les arabesques se déploient avec raffinement, chaque tissu raconte un fragment d'histoire : la douceur d'un paysage pastoral, la géométrie d'une mosaïque romaine ou la sensualité d'un décor renaissant. Entre héritage et création, cette collection célèbre l'art décoratif italien, dans une interprétation contemporaine où la matière et le dessin se répondent avec harmonie.

This collection pays tribute to Italy's timeless elegance, across the ages and artisanal traditions. The fabrics evoke the splendour of ancient frescoes, the delicacy of Pompeian gardens, the grace of Dionysian dances and the richness of Genoa velvets. Floral motifs, volutes and arabesques unfold with refinement, each fabric telling a fragment of history: the softness of a pastoral landscape, the geometry of a Roman mosaic or the sensuality of a Renaissance décor. Between heritage and creation, this collection celebrates Italian decorative art in a contemporary interpretation where material and design respond to each other in perfect harmony.
