

vanGhent

rugmakers since 1928

The VANGHENT collection presents a distinguished selection of handmade rugs, produced in diverse regions around the globe.

With a legacy of nearly 100 years in rug production, our family has developed an unparalleled expertise in raw materials and craftsmanship.

Each of our rugs is meticulously crafted by skilled artisans who uphold this century-old tradition. This dedication allows us to offer a collection that adds exceptional elegance and sophistication to any interior, using only the finest materials. Our rugs feature a curated blend of handspun silk, linen, nettle, cactus, hemp, wool, and premium man-made filament yarns, all chosen for their quality and beauty.

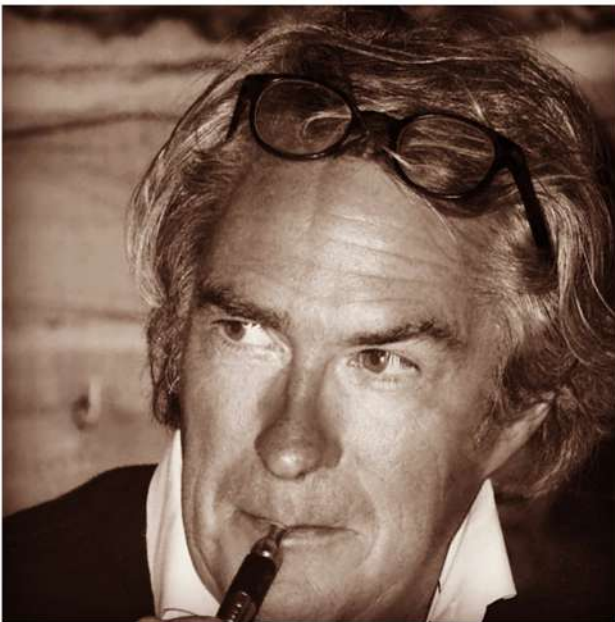

Our commitment to traditional techniques ensures that each rug is more than just a product—it is a piece of art with a story. Subtle imperfections, often seen as flaws, are what give our rugs their unique character, making each one a perfect reflection of our craftsmanship. Custom-made to order in any size, every rug is carefully hand-finished for a truly bespoke touch.

This catalog showcases the curated pieces we offer, with samples available for your selection. However, through our discreet collaborations with renowned and emerging interior designers, we are able to craft custom rugs tailored to specific needs—whether it's a unique design, size, structure, or color. This flexibility ensures that we can provide the ideal solution for any project.

Our rugs grace the interiors of some of the world's most prestigious spaces, chosen for their superior quality, craftsmanship, prompt delivery, and exceptional service.

For further details or inquiries, please reach out to us or one of our representatives.

Patrick Huyghe
founder/designer

100% handmade

handspun yarns, handdyed, handknotted, -woven or -tufted, handwashed and handfinished by our passionate and skilled weavers using ancient old traditional production techniques passed on from generation on generation. Each rug is completely produced by hand for you on order only and can have some imperfections which make them just perfect and beautiful to us.

WARNING

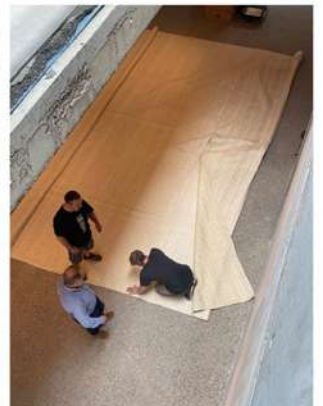

Do inform your customers well that we do not make perfect industrial products but works of true craftsmanship.

To us, true beauty is to be found in the imperfection of a product, due to the quality of raw materials and the genuine, original character of our production techniques, passed on from generation to generation infusing our crafts with a soul and making each piece unique.

Therefore, some irregularities in the surface of the rug may occur as well as colour and size differences within a tolerance of 5% and therefore can sure not be accepted as reason for complaints or refusal of our deliveries of our fully handmade products.

vanGhent
rugmakers since 1928

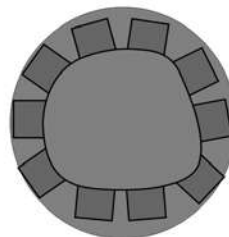

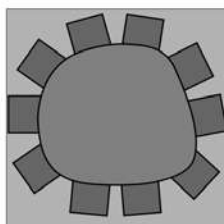

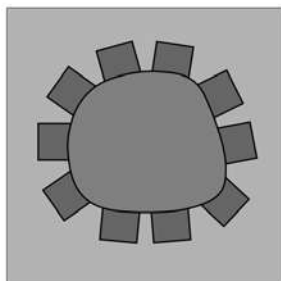

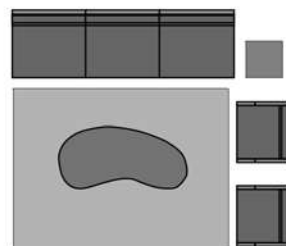

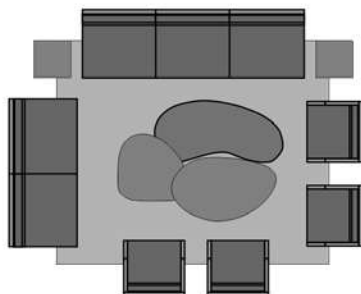

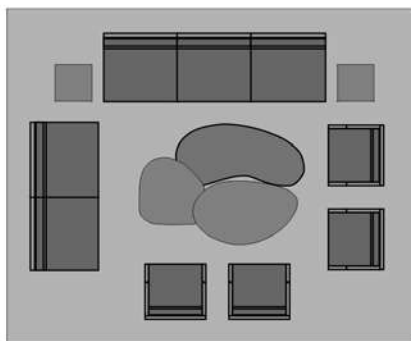

Vanghent HQ in Bruges, Belgium. Vanghent ships worldwide and is represented in Europe and the USA. Please contact us for your local agent and showroom.

Size of the rugs. The bigger the size of the rug the more beautiful calm and elevated an interior will look. The larger the rug the more spacious and grand a room will feel.

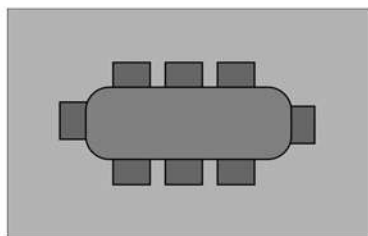

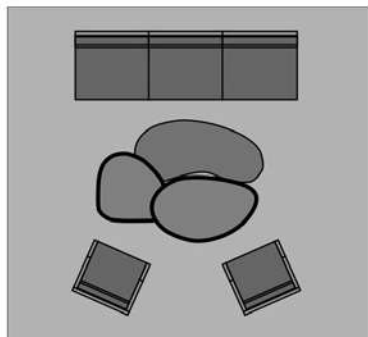

To visualise the rug in a room, mark the size with tape in the floor.

Living room: make sure all the furniture is placed on the rug. Your furniture is elevated as is the whole interior. Avoid to put furniture half on the rug as it may warp, especially furniture with a wooden frame.

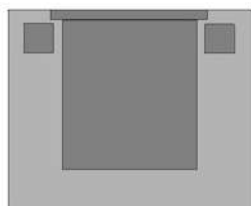

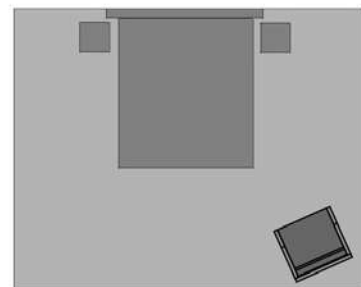

Dining room: make sure you that you can move your chairs far enough to the back on the rug in order to avoid taking the border with you when sliding the chair under the table.

EcoSe is a fibre with a high brilliance which creates patterns in the rug and will show every footprint. The pile is extremely soft and luxurious.

These rugs are cleanable with water and other than with other man-made silks as viscose or bamboo silk the structure of the yarn does not change !

These rugs are handknotted in handspun Mazari wool or Ghazni wool; the natural colour of these wools varies from black to white which creates a lot of colourvarations which can be positionned differently making each rug unique.

Ces tapis sont noués à la main dans une laine Mazari ou laine Ghazni filée à la main; la couleur naturelle de ces laines varie de noir vers le blanc ce qui crée des variations de couleur qui peuvent être positionnées différemment ce qui fait une pièce unique de chaque tapis.

Diese Teppiche sind handgeknüpft mit handgesponnene Mazari Wolle oder Ghazni Wolle; die natürliche Farbe geht von schwarz nach weiss was viel Farbvariationen kreiert die in jeder Teppich anders positioniert sein können was jeder Teppich ein Unikat macht.

Deze tapijten worden handgeknoopt met handgesponnen Mazari wol of Ghazni wol; de natuurlijke kleur van die wolsoorten gaat van zwart tot wit wat veel kleurvariaties creëert die steeds verschillend gepositioneerd kunnen zijn wat ieder tapijt uniek maakt.

The background of the entire image is a handknotted rug. It features a repeating geometric pattern of horizontal bands. Each band consists of a row of small, dark brown rectangular knots, which are separated by thin, vertical lines of a lighter, orange-brown color. The overall effect is a textured, woven appearance with a rich, earthy color palette.

The image shows a close-up, high-resolution view of a light beige or cream-colored rug. The rug has a dense, textured pile made of sumakh, which is a type of plant fiber. The weaving pattern is intricate, with visible diagonal lines and a slightly irregular, handcrafted appearance. The lighting is soft and even, highlighting the natural texture and color variations of the fibers.

These rugs are handknotted in handspun Mazari wool or Ghazni wool; the natural colour of these wools varies from black to white which creates a lot of colour variations which can be positioned differently making each rug unique.

Ces tapis sont noués à la main dans une laine Mazari ou laine Ghazni filée à la main; la couleur naturelle de ces laines varie de noir vers le blanc ce qui crée des variations de couleur qui peuvent être positionnées différemment ce qui fait une pièce unique de chaque tapis.

Diese Teppiche sind handgeknüpft mit handgesponnene Mazari Wolle oder Ghazni Wolle; die natürliche Farbe geht von schwarz nach weiss was viel Farbvariationen kreiert die in jeder Teppich anders positioniert sein können was jeder Teppich ein Unikat macht.

Deze tapijten worden handgeknoopt met handgesponnen Mazari wol of Ghazni wol; de natuurlijke kleur van die wolsoorten gaat van zwart tot wit wat veel kleurvariaties creëert die steeds verschillend gepositioneerd kunnen zijn wat ieder tapijt uniek maakt.

A photograph of a rustic wooden stool with a thick, flat top and four sturdy legs, positioned on a large, rectangular area rug. The rug features a dense, intricate pattern of blue and white, creating a textured, almost woven appearance. The stool is made of light-colored wood, showing natural grain and some weathering. The background consists of a minimalist interior with white walls and a light-colored wooden floor. A white cabinet or shelving unit is visible in the upper right corner. The lighting is soft and even, highlighting the textures of the wood and the rug.

Possible with or without border

Outdoor qualities used inside and especially on floor heating is not favourable as the rugs will dry out and the yarn will slowly break.

Outdoor rugs in natural yarns should not be left outside in the rain for consecutive days. It is important that they can dry in the sun every other day

All our rugs are made on order in almost any transportable size. In most qualities we can produce even complex designs, borders and any shape. We have a large library of designs of all style periods. We are able to supply handknotted rugs within delays that seem impossible, even in extremely large sizes. Don't hesitate to question us.

Tous les tapis sont faits sur demande dans presque n'importe quelle taille. Dans la plupart des qualités nous pouvons réaliser des dessins même très compliqués, des bordures et/ou n'importe quelle forme. Nous avons une grande bibliothèque de dessins de toutes les époques. Nous sommes capables de produire des tapis noués dans des délais qui semblent être impossibles, même dans des tailles extrêmement grandes. Questionnez nous.

Alle Teppiche werden auf Bestellung produziert in fast je Grösse. In den meisten Qualitäten können wir ebenfalls komplizierte designs, Borduren und unterschiedliche Formen produzieren. Wir haben eine sehr grosse Auswahl von Designs aus allen Epochen und können eben extrem grosse Teppiche knupfen innerhalb von Lieferzeiten die unmöglich scheinen zu sein. Kontaktieren Sie uns für mehr Informationen.

Alle tapijten worden op bestelling geproduceerd in bijna om het even welke afmeting. In de meeste kwaliteiten kunnen wij dessins, zelfs complex, boorden en om het even welke vorm realiseren. Wij beschikken over een ruim archief van dessins uit alle stijlperiodes en kunnen handgeknoopte tapijten, zelfs extreem groot, aanbieden binnen levertermijnen die voor onmogelijk gehouden worden. Neem contact op met ons voor meer informatie.

FABRICS

VANGHENT also produces 100% handwoven fabrics, complementary to and with the same love for genuine products as the rugs.

Fabrics in handspun yarns of silk, hemp, nettle, wool and other natural yarns.

Alle fabrics are woven in 140 cm and can again be custom colored.

Bigger widths are possible for project of more then 500 running meter.

Handwoven fabrics in natural yarns bleach by exposure to day- and moonlight; the lesser the yarns are twisted the more they absorb light. If you use these fabrics as curtains they need to be doubled with a colorfast fabric facing the incoming light.

For seating use it is necessary to use an interlining or coating.

the colour conformity of these natural and woolen fibres between the samples and the final product cannot be fully guaranteed. Variations in the shade of these fibres cannot be assimilated to a production defect.
